EXPENDITURES

From *Measurements of Quality: Public Library Standards for Kansas*, Standards Summary Checklist

- Sufficient funds are provided for the purchase of library materials from the annual library operating budget. (p. 38)

- In the adequately funded library, the board should direct the allocation of budgeted funds in the following proportions:

Salaries	67-70%
Operations	15-20%
Materials	15-20%

- If it is impossible to allocate these proportions to the support of staff and materials, this should be a strong indication to the board that the library is not adequately funded. The availability of funding from gifts, endowments and other citizen supports should not be allowed to replace local taxing effort. (p. 16)
